Lecturer Here on May 3rd. of International Repute

Montville Flowers who speaks May 3rd. is founder and was first President of the International conference of Statesmen and Lecturers held in April 1918 at Washington, D. C. Addresses were delivered before this Conference by the leading statesmen of the world, French, Italian, and Japanese ambassadors, also Lord Reading of England and several of the leading statesmen from Canada and the United States.

Mr. Flowers edited the great volume "What Every American Should Know about the War", published in August 1918 containing contributions of over forty great masters, including statesmen, soldiers, scholars, ambassadors, and officials of Europe and America. No publicist has a clearer fuller grasp of facts and issues involved in present world affairs. He stands pre-eminent among America's greatest orators for his power to present vital subjects in forcible, logical addresses. His subject "The Triumph of Democracy" is a message of the hour and is a clear discussion of the principles and problems now engaging the thought of the world as a sequence of the great war. Every intelligent, intelligent patriot should hear Montville Flowers in "The Triumph of Democracy".

Mr. Flowers tour is being directed by the Du Pont Lyceum - Ellison White Service as was Irvin S. Cobb and many other notable speakers who have appeared in Western Canada recently.

Municipal Council Having West Road Graded

THE PRESS takes pleasure in reporting the fact that the municipal council has engaged W. H. Smith with his Cleveland tractor to grade up the main road running west to the valley. This is but a step towards what is required, but perhaps when this objective is accomplished the other roads will receive attention.

LOCALETS

Barney Neil is back from the Eastern States where he had been for the winter.

The next regular U.F.W.A. meeting will be held at the home of Mrs. R. H. Dobson on Thursday, May 1st.

Tenders are again being called for the erection of the telephone between Vulcan and Lomond. Last fall when

the tenders were called for not a single application was received for the work. We would think that with the extensive work planned by the government for this coming summer it would be to the best interests of the telephone department to organize its own construction department.

Roy T. Albertson and Miss Alta Enders, both well known local young people, were married in Calgary last Saturday. They will live on their farm east of Ingondale.

Mrs. H. N. Hanna is entertaining at a tea this afternoon in honor of her sister Mrs. A.R. Hanna, a bride of but a few weeks.

The weather this week has remained for the most part ideal for seeding. No rain and not enough wind on the

week days to tie up any of the outfits. On a great many farms wheat seeding is a thing of the past and even in some cases the oats are already in. The Bow City district is a little behind some of the territory west of there, but they are coming fast to the foreground.

Hon. C.R. Mitchell M.P.P., and Hon. A.J. McLean have already replied to the communication of the Lomond Board of Trade asking for co-operation in road improvement, and have promised to come to Lomond at an early date and go personally into the matter.

Since the above was written a satisfactory reply has also been received from our own member, Jas. McNaughton, M.P.P.

The church was profusely decorated with flowers and plants for the Easter

service on Sunday evening. The pastor delivered a very interesting sermon appropriate to the day.

Mr. Terry of the Ogilvie Co. was a business visitor in town last week.

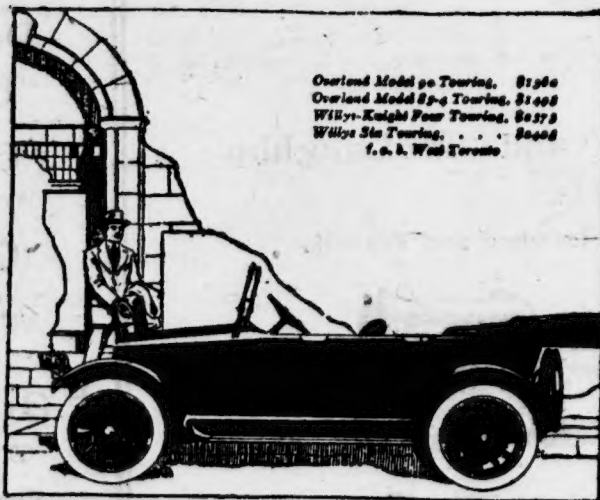

Geo. Whitley went to Calgary on Wednesday to take part in the great reception tendered the Fighting Tenth.

Lomond has been a pretty dry town this week, even drinking water being at a premium.

Men's Gauntlet Horsehide Gloves, Mule Backs, for one week they sell at 95c. per pair—regular \$1.75 and cheap at that.—Frank Brown Co., Ltd.

BADGER LAKE

Wm. Burton had the misfortune to lose one of his pure bred mares.

o o o

There appears to be an epidemic afflicting cattle in this district. P. T. Thompson has lost eight head and S. A. Trew two head.

o o o

Mrs. B. King has been quite ill.

o o o

Mrs. A. Durand is staying at Nanton for a few weeks.

o o o

It is to be hoped that the efforts of the Lomond Board of Trade on behalf of good roads will not overlook this district.

o o o

L. Rue is over from Nanton putting in his crop.

o o o

Cap Calkins is selling off some of his black percheons, Mr. Wiseman getting a team of colts.

o o o

Seeding operations are progressing favorably around here, the wheat being all under cover.

o o o

Irene McAllister sustained a severe cut on her hand on Monday.

NOTES

While we are on the agitation for good roads, why not urge that the new road running east be opened to the boundary of the municipal district.

o o o

Hoover says that wheat is apt to reach \$3.50 a bushel this fall. It won't hurt our feelings any if he turns out to be a good prophet.

o o o

According to several things that have been dropped at Ottawa there is every reason to expect a general election as soon as the overseas demobilization is completed. It is bound to be a fight on tariff return with the liberals using this as their battle cry. The unionists are afraid to break away from the money pots, even against their better judgment. Just now its a case of "the

people be damned" and "hurrah for the guy with the most ready money." It is a hard and slow job to swing public opinion, but there is every reason to believe that Canada would vote free trade right now.

o o o

The Alberta government is taking over three thousand miles of main highways and is taking the responsibility of their up-keep. It would be a good idea to get in touch with the Travellers' Association and have the route from Vulcan to Taber, via Lomond, included in this scheme.

o o o

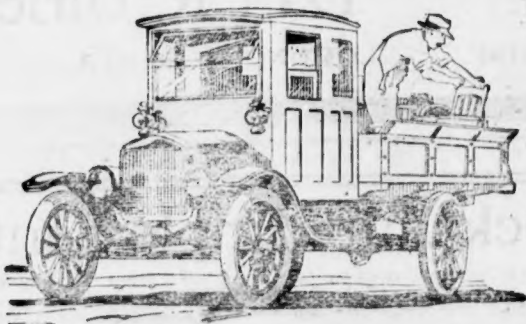

We are not much of a weather prophet, but we set May 1st. as a rainy day.

o o o

Canada burns up yearly per capita around four dollars. Bobbie will soon have to get his fire brigade trained up.

o o o

The presidents of the C. P. R. say that Canada can easily assimilate all the labor offered by demobilization. So far there has been remarkably little unemployment and congestion in labor circles. The C.P.R. might use a few men in extending this line.

Now a Complete Truck

HEREAFTER Ford One-Ton Trucks may be bought complete with bodies and cabs, ready for the road.

The body as well as the chassis will be planned to give Ford service.

This will insure the utmost efficiency from the Ford Truck; give the purchaser Ford value in every part of his truck; produce better bodies at lower prices.

Two types of Truck bodies, the Stake and the Express, will be kept in stock, set up, painted

(or in the lead) and ready for prompt delivery.

They have oak floors, sills of seasoned hickory and specially designed forgings and castings.

The construction at every point provides for rough usage such as every truck is bound to get. Both bodies have closed cabs to protect the driver.

These cabs have sliding windows and two-way, double ventilating windshields.

Call and learn what it will cost to use these complete trucks in your business. Look them over carefully. See how they outclass other trucks in every detail.

FOREIGN CREDITS FOR THE SALE OF CANADIAN WHEAT

J. A. Maharg, M.P., says that Canada cannot expect to export to the United States wheat of the 1919 crop. The fixed price in that country will keep out the Canadian product, for the Americans would not allow Canadian wheat to undersell their own which remains at the 1918 fixed price.

This means that Canada's exportable surplus of wheat must find a market abroad, which further means it must be sold on time. Mr. Maharg says that many solvent nations want it, but they cannot pay cash, so if sales are to be made large credits have to be granted.

The Dominion Government is willing to grant these credits, but its ability to do so is dependent on the extent to which they can borrow money from its own people. If the money is forthcoming all the credits required will be granted, but Canadians must make these possible. For Canada to borrow money abroad for this purpose would be out of the question.

War Saving Stamps help solve the problem of credits, for they enable the

Government to borrow at home the money it requires. Besides, the price of the stamps is placed so low, \$4, that every person earning wages in Canada can afford to buy them. The farmers of the West should be eager to get them, for they are vitally interested in seeing that foreign credits are granted.

John Eagle's shack burned down a week ago Sunday from unknown causes John's cook must have been warming things up a bit.

A stern-looking old lady sat down beside a young couple the other night at a re-union and the young people were discussing the new automobiles lately purchased for them by their respective fathers. "What color is your body?" asked the young man. "Mine's pink, what is yours?" "Mine," replied the young man "is brown with wide yellow stripes." This was too much for the old dame and she turned on the surprised motorists and said: "The banquet hall is no place to talk about your ailments, and I think both of you should go see a doctor at once."
